

EXECUTIVE DOSSIER & PROFILE

FERREL RASHAD AKEYLA

Full-Stack Web Developer · Quant ML Builder · Creative Technologist

Transforming ambitious product ideas into high-converting web applications, automated business backoffices, and intelligent data systems. Proven record delivering full-stack software across React/Next.js, Laravel/Filament, Python/ML, and interactive 3D engines.

01 // HIGH PERFORMANCE

60 FPS reactive UI & optimized server architecture

02 // PRODUCTION READY

End-to-end admin portals, webhooks & ML pipelines

FULL-STACK

CHAPTER 01 // CORE COMPETENCIES

TECHNICAL ARSENAL & BUSINESS VALUE STREAMS

Production-tested tech stacks curated for rapid delivery, high performance, and measurable business ROI.

SPEED

</> FRONTEND ARCHITECTURE

- ★ React 19 & Next.js
- ★ TypeScript / Modern JS
- ★ Tailwind CSS v4 & Vite
- ★ Framer Motion & GSAP

→ Ultra-fast, high-converting UX with 60 FPS animations.

ROBUST

🔧 BACKEND & BACKOFFICE

- ★ Laravel 11 & PHP
- ★ Filament 3 Admin Panels
- ★ Supabase & PostgreSQL
- ★ REST APIs & Webhooks

→ Automated operations, secure auth & admin suites.

DATA ML

🛡️ APPLIED ML & QUANT

- ★ Python & Streamlit Apps
- ★ XGBoost & LightGBM
- ★ Time-Series & Backtesting
- ★ Plotly Interactive Dashboards

→ Zero-leakage data modeling & actionable intelligence.

3D & TECH

🎮 INTERACTIVE 3D & TECH

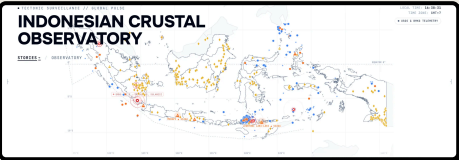

- ★ Unity 3D & C# Physics
- ★ Roblox Studio & Luau Scripts
- ★ HTML5 Canvas 2D / WebGL
- ★ Figma UI/UX Design Systems

→ Real-time physics engines, simulation worlds & 60 FPS UX.

FLAGSHIP WEB, GEOSPATIAL & QUANT SYSTEMS

FLAGSHIP
CASES

Research-grade observatories, high-performance motorsport showcases, and institutional-grade financial telemetry.

GEOSPATIAL / HAZARD

React 19 / Canvas 2D

NUSANTARA OBS...

Goal: Research-grade planetary hazard monitoring across Indonesia with sub-millimeter 2D Canvas vector cartography.

Solution: Multi-agency live pipelines (USGS, BMKG AutoGempa, NASA FIRMS thermal & PVMBG alerts).

✔ 60 FPS vector map, 4D replay & Haversine prox...

REACT 19

TYPESCRIPT

CANVAS 2D

NASA FIRMS

LUXURY WEB

GSAP / Physics

CHARLES LECLER...

Goal: Cinematic motorsport showcase celebrating F1 driver Charles Leclerc & Scuderia Ferrari HP.

Solution: Fluid Ribbon Trail velocity physics, Canvas 2D Simplex Noise, & Monaco GP telemetry HUD.

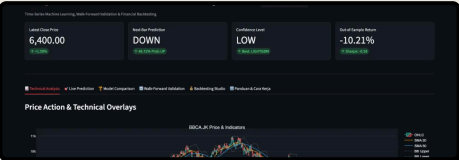

✔ Sub-step Bézier trail physics at 60–120 FPS.

TELEMETRY

QUANT ML

Python / Streamlit

STOCK ML ANALY...

Goal: Zero-lookahead market direction forecasting & realistic financial friction backtesting.

Solution: 20+ technical indicators, XGBoost/LightGBM, and fee simulation (0.15%).

✔ Walk-forward validation & Sharpe metrics.

PYTHON

STREAMLIT

XGBOOST

SCIKIT

CREATIVE TECH

React 19 / GSAP

SPIDER-DEV PLAT...

Goal: High-impact developer portfolio showcasing creative frontend and audio architectures.

Solution: GSAP ScrollTrigger 60 FPS parallax, procedural Web Audio sound & comic design system.

✔ Hardware-accelerated web performance.

REACT 19

TAILWIND

PRODUCTION SAAS, BACKOFFICES & 3D GAME SYSTEMS

SAAS & 3D
ENGINES

Full-stack cloud applications, automated business backoffices, and real-time physics simulation engines.

PREMIUM HEALTH - CONSCIOUS RETAIL

Hidup sehat,
disederhanakan

Bahan jujur untuk hidup yang lebih baik. Kami mengkurasi roti gandum, kopi pilihan, dan ramuan herbal terbaik untuk Anda.

E-COMMERCE

Laravel 11 / Filament

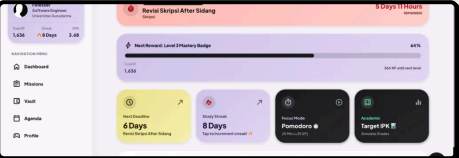

FERSYA SHOP & A...

Goal: Modern organic food storefront with streamlined non-tech admin controls.

Solution: Modular Laravel 11 platform with Filament 3 backend for live stock & orders.

Automated inventory & mobile checkout.

LARAVEL 11 FILAMENT 3 TAILWIND

React 19 / Supabase

PRODUCTIVITY SAAS

STUDENT LIFE SA...

Goal: Academic task planner with real-time multi-device cloud synchronization.

Solution: Type-safe React 19 architecture with Supabase Auth, PostgreSQL & daily calendar.

Zero-latency state sync & clean UX.

REACT 19 TYPESCRIPT SUPABASE

UNITY 3D ENGINE

C# Physics

STREET RUSH (3D)

Goal: Fast-paced 3D arcade runner with custom rigidbodies & mobile physics.

Solution: Dynamic obstacle spawner algorithms, score multipliers, and steady 60 FPS mobile performance.

Optimized collision matrices & 60 FPS.

UNITY C# SCRIPTS 60 FPS

ROBLOX SIMULATION

Lua Code

GUNUNG GEDE T...

Goal: Immersive 3D hiking simulation recreating Mount Gede's Gunung Putri trail.

Solution: Modeled realistic elevation terrain, weather lighting cycles, and stamina mechanics in Luau.

Realistic terrain physics & stamina mechanics.

ROBLOX LUAU 3D TERRAIN

COLLABORATION & DISPATCH

READY TO BUILD SOMETHING EXTRAORDINARY?

Whether you need a dedicated Full-Stack Web Developer, a Quantitative/ML Builder, or a Creative Technical Partner, I deliver clean architecture and high-converting products on schedule.

⚡ HIGH VELOCITY & OWNERSHIP

From wireframe & Figma to production backend & deployment.

🛡️ CLEAN, MODERN CODE

Maintainable React 19, TypeScript, Laravel 11 & Python.
