

★ EXECUTIVE PROFILE & VALUE PROPOSITION

FERREL RASHAD AKEYLA

Full-Stack Web Developer • Quant ML Builder • Creative Technologist

Transforming ambitious product ideas into high-converting web applications, automated business backoffices, and intelligent data systems. Proven record delivering full-stack software across React/Next.js, Laravel/Filament, Python/ML, and interactive 3D engines.

01 // HIGH-PERFORMANCE UX

60 FPS reactive UI & optimized server architecture

02 // ENTERPRISE BACKOFFICE

End-to-end admin portals, webhooks & ML pipelines

STATUS: AVAILABLE FOR HIRE ⚡**FULL-STACK & FREELANCE**

CORE FOCUS: Full-stack web architectures, automated Laravel backoffices & applied machine learning dashboards.

5+ SHIPPED**60 FPS UX****FULL-STACK**

TECHNICAL ARSENAL & BATTLE TOOLCHAINS

Production-tested stacks curated for rapid delivery, high performance, and measurable business ROI.

FRONTEND ARCHITECTURE

SPEED

- ★ React 19 & Next.js
- ★ TypeScript / Modern JS
- ★ Tailwind CSS v4 & Vite
- ★ Framer Motion & GSAP

→ Ultra-fast, high-converting UX with 60 FPS animations.

BACKEND & BACKOFFICE

ROBUST

- ★ Laravel 11 & PHP
- ★ Filament 3 Admin Panels
- ★ Supabase & PostgreSQL
- ★ REST APIs & Webhooks

→ Automated operations, secure auth & admin suites.

APPLIED ML & QUANT

DATA ML

- ★ Python & Streamlit
- ★ XGBoost & LightGBM
- ★ Time-Series & Backtest
- ★ Plotly Dashboards

→ Zero-leakage data modeling & actionable intelligence.

3D GAMES & MEDIA

MEDIA

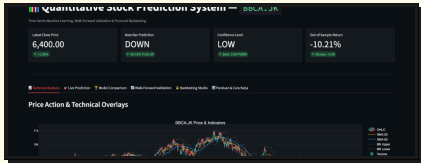

- ★ Unity 3D & C# Scripting
- ★ Roblox Studio & Luau
- ★ Vegas Pro 18 Video Edit
- ★ Figma UI/UX Systems

→ Gamified products, 60 FPS physics & motion media.

FEATURED WEB & ANALYTICS SYSTEMS

Structured STAR case studies demonstrating end-to-end full-stack development, quantitative algorithms, and automated backoffices.

STAR CASE STUDIES

QUANT ML Python / Streamlit

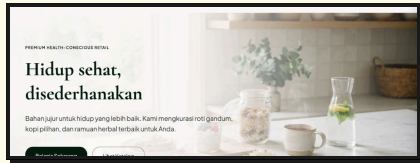

STOCK ML ANALYTICS

Goal: Zero-leakage market forecasting & realistic backtesting.

Solution: 20+ alpha indicators, XGBoost/LightGBM, and 0.15% fee simulation.

✓ **Walk-forward validation & Sharpe metrics.**

PYTHON **STREAMLIT** **XGBOOST**

E-COMMERCE Laravel 11

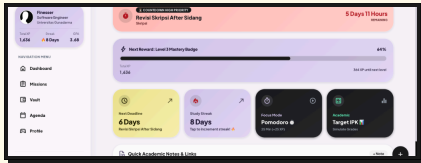

FERSYA SHOP & ADMIN

Goal: Organic food storefront + non-technical admin backoffice.

Solution: Laravel 11 with Filament 3 panel for live stock & order webhooks.

✓ **Automated inventory & mobile checkout.**

LARAVEL 11 **FILAMENT 3** **TAILWIND**

PRODUCTIVITY React 19

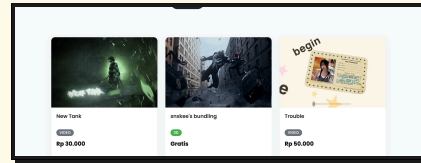

STUDENT LIFE APP

Goal: Academic task planner with multi-device cloud sync.

Solution: Type-safe React 19 architecture with Supabase Auth & PostgreSQL.

✓ **Zero-latency state sync & clean UX.**

REACT 19 **TYPESCRIPT** **SUPABASE**

INTERACTIVE Creative Tech

SPIDER-DEV PLATFORM

Goal: High-impact portfolio communicating creative & technical mastery.

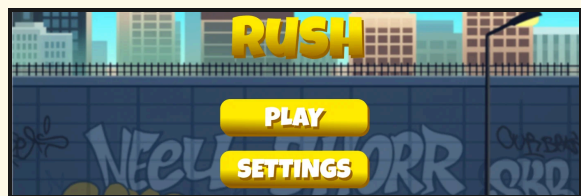

Solution: GSAP 60 FPS parallax scrub, Web Audio FX & recruiter mode.

✓ **Hardware-accelerated web performance.**

REACT 19 **GSAP** **WEB AUDIO**

INTERACTIVE GAME SYSTEMS & MULTIMEDIA

Real-time physics engines, terrain simulation worlds, and precision audio-visual motion media.

UNITY 3D

C# Physics

STREET RUSH (MOBILE 3D)

Fast-paced 3D arcade runner with custom rigidbodies, dynamic obstacle spawner algorithms, and steady 60 FPS mobile performance.

✓ **Optimized collision matrices & memory management.**

UNITY ENGINE

C# SCRIPTS

60 FPS

ROBLOX SIMULATION

Luau Scripts

GUNUNG GEDE TRAIL (3D)

Immersive 3D hiking simulation recreating Mount Gede's Gunung Putri trail with accurate elevation terrain and lighting cycles.

✓ **Realistic terrain physics & stamina mechanics.**

ROBLOX STUDIO

LUAU SCRIPTS

3D TERRAIN

MOTION & VIDEO

Vegas Pro 18

CINEMATIC MOTION & AMVS

High-tempo video edits featuring frame-accurate audio-visual beat sync, rhythm transitions, and stylized color grading.

✓ **Microsecond beat synchronization & speed ramping.**

VEGAS PRO 18

BEAT SYNC

COLOR GRADE

READY FOR DEPLOYMENT

READY TO BUILD SOMETHING EXTRAORDINARY?

Whether you need a dedicated Full-Stack Web Developer, a Quantitative/ML Builder, or a Creative Technical Partner, I deliver clean architecture and high-converting products on schedule.

⚡ HIGH VELOCITY & OWNERSHIP

From wireframe & Figma to production backend & cloud deployment.

💡 CLEAN, MODERN CODE

Maintainable React 19, TypeScript, Laravel 11 & Python pipelines.
